

CUSHION TRAX SAFETY ANTI-FATIGUE DRY AREA MATTING

CUSHION TRAX® is engineered to meet the toughest requirements of today's industrial applications and is particularly suited for multi-shift operations in dry work areas. The durable vinyl diamond-plate design provides non-directional traction, and is easy to clean. The top surface is combined with a dense closed cell foam base utilizing Notrax® exclusive UniFusion™ technology.

This virtually eliminates the possibility of de-lamination. All Notrax® laminate floor mats come standard with RedStop™, a uniquely engineered non-slip backing technology that eliminates the slipping and sliding of floor mats on smooth surface flooring such as tile, wood, marble, and treated concrete.

Where to use:

Machine operating stations or multi-shift dry applications needing fatigue prevention and sure footing.

Product info:

- Long-lasting vinyl top surface made from 100% recycled materials is combined with a dense closed cell PVC foam base
- Diamond-plate surface texture provides added traction
- Redstop™ non-slip backing to reduce mat slippage
- Beveled edges on all 4 sides
- Certified by the NFSI (National Floor Safety Institute)
- Resistant to most industrial fluids and chemicals
- Yellow safety borders
- 14mm thick, single workstation mats and runners
