

# DIAMOND - STAT ANTI STATIC MATTING

Diamond Stat™ is a dissipative/anti-static mat designed to absorb static electricity. The mat drains static electricity from the worker keeping sensitive circuitry from being damaged. The durable vinyl diamond-plate design provides non-directional traction, and is easy to clean. The top surface is combined with a dense closed cell foam base utilizing NoTrax® exclusive UniFusion™ technology virtually eliminating the possibility of de-lamination. For maximum effectiveness, we highly recommend that the end-user properly attaches the grounding cord which is included at no charge.

## Where to use:

Assembly or testing areas for circuitry; computers, chips, electronics of all kinds.

## Product info:

- Dissipative /anti-static matting is formulated to absorb static electricity. This matting drains static from worker keeping sensitive circuitry safe from damage
- Durable vinyl diamond-plate top surface is combined with dense closed cell foam base utilizing NoTrax® exclusive UniFusion™ technology
- Provides excellent anti-fatigue support with a textured anti-slip surface
- Overall mat thickness is 19mm
- Sloped beveled foam on all 4 undersides affords easy access onto and off of mat
- With RedStop™ to eliminate mat slippage
