

ECO FRESH CLIP

Alternate fragrances

THE ECO FRESH CLIP

Believe it or not, urinals are not the only producers of smells in your washroom. Toilets in mens washroom, disabled washrooms and even ladies washrooms all can smell a bit off.

The Eco Fresh Clip has been designed out of a polymer that contains fragrance oils. This polymer gradually releases the fragrance over 30 days giving your cubicle areas the fragrance lift they need.

Made of environmentally material, these 100% recyclable Clips will not dissolve in or pollute water.

They are easy to use, simply clip them over the outside of the bowl and watch them shrink as the fragrance evaporates.

FEATURES

- 30% more air freshener than standard rimsticks.
- Gradually releases air freshener over 30 days.
- Used Clip will shrink by 30% in 30 days, to a tight fit.
