# Our Fresh & Our Fresh-E

## Non Aerosol Air Fresheners

Innovative Smart program ensures an equal fragrance release over 30 days. Available in both Our Fresh-e plug-in or Our Fresh battery options, the units contain a light sensor to conserve power so the unit only works when the room is in use. The smart chip controls the programming so the fan runs sparingly in week 1 and gradually turns more frequently over the 4 week period, helping release the same amount of air freshener daily over 30 days.

Our Fresh

Our Fresh-E

Refill fits both units

Our Fresh-E

### Tech Specs

- Light Activated – Only runs when the lights are on
- The word 'REPLACE' flashes on day 30

#### Fresh:

- Requires one C Alkaline Battery
- Removing the battery starts the program over at day one
- An audible beep begins on day 33 if the refill and battery have not been replaced

#### Fresh-E:

- Rotating plug works in any 3 prong outlet.
- Has intensity output selector
- Opening the unit when refilling restarts the program at day 1.
- Draws air through charcoal filter helping to clean the air

## Premium Performance for Large Areas

Up to 2 x the fragrance than metered Aerosols and more consistent fragrance release from day 1 to day 30.
