

SKYSTEP™ ANTI-FATIGUE MATTING

The SkyStep™ is a standalone rubber mat designed for individual work stations. Ergonomically engineered, the SkyStep™ utilizes the power of air. The mat is designed to suction to the ground to prevent shifting while trapping air in its chambers.

These air pockets combined with the resiliency of the rubber create an ultimate cushioning effect while keeping the mat lightweight. Superb anti-fatigue properties due to the ergonomic bubble pattern. Molded, beveled edges are on all four sides to prevent trip hazards.

Where to use:

- Packaging Stations
- Shipping Areas
- Inspection Areas
- Dry Areas

Product info:

- Rubber molded, air-pocket underside anti-fatigue mat
- Designed to suction to the ground to prevent shifting while trapping air in its chambers
- Made of heavy duty natural rubber compound
- For general purpose applications
- Beveled edges on all 4 sides
- Bubble top surface pattern
- 13mm thick
