

SKYSTEP ESD STATIC DISSIPATIVE MATTING

Static dissipative anti-fatigue mats protect against static shocks while providing comfort for standing workers. This lightweight rubber mat has superb anti-fatigue properties due to the ergonomic bubble pattern top surface and moulded air pockets underneath.

Where to use:

Any areas where workers walk around generating static electricity and you want to protect electrical equipment and workers from static charges

Product info:

- Static dissipative polyurethane foam
- Ergonomically designed bubble surface provides traction and fatigue relief
- Overall thickness: 14 mm
- Weight: 4.8 kg per m²
- Slip resistance rating R11 according to DIN 51130 and BG-rule BGR181
- Meets IEC61340-4-1 (category DIF) measured resistance
