

SPILL KIT WITH VISUAL INDICATOR 1 LITRE

WHAT THEY DO: SOLIDIFYING LIQUID ABSORBENT WITH WEAK ACID NEUTRALIZER AND VISUAL INDICATOR.

- Extremely powerful deodorizing absorbent.
- Retains absorbent properties in an acid environment and neutralises acidic spills.
- Turns liquids into a semi-solid gel to allow the safe collection and removal of water based fluids.

USE ON / IDEAL FOR

- Transportation: trains, aeroplanes, boats, automobiles, coaches, buses.
- Catering: bars, night clubs, hotels, restaurants.
- Health: hospitals, clinics, ambulances, emergency services, nursing and retirement homes.
- Breeding: veterinary clinics, grooming salons, kennels.

FEATURES:

- Visual Indicator shows when spill is safe to remove.
- Can absorb up to 100 to 120 times it's volume.

INSTRUCTIONS FOR USE:

STEP 1: Test on small area of carpet recommended. Choose the dosing mode desired on lid. Either sprinkle out for small spills or use wide dispenser side of lid for larger spills.

STEP 2: Pour granules over the spill ensuring to cover entire spill. Wait until granules have fully absorbed the moisture.

STEP 3: The pH colour indicator will change granules to yellow in case of an acidic spill and turns green when the acid has been neutralized and the spill is safe for handling.

STEP 4: The green dry residue can be removed using a napkin, paper towel or disposable cloth. Is safe to also be swept up or vacuumed.

MATERIALS:

- Absorbent Gel Granules.
