TouchPoint Facility Sanitiser Wipes

Kills 99.9% of germs. Use to decrease bacteria and germs from Hands and personal space TouchPoints.

Reduce cross contamination by keeping the TouchPoints in your facility more hygienically clean, more often.

These non-alcohol wipes can be used to sanitise surfaces within your facility continuously thru-out the day.

Available in 500 count bucket, can be used in most large center pull dispensers. Always mount dispenser facing upwards, so wipe pull up and not down.

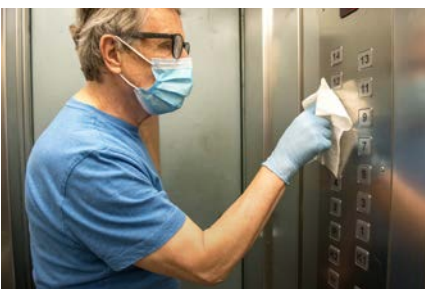

USES: For cleaning and sanitising TouchPoints in Gymsnasiums, Offices, Schools, Universities, Restaurants, Trains, Planes, Buses, and regularly touched surfaces in your work or leisure facility.

FEATURES

- Reduces 99.9% of harmful germs and bacteria on your hands.
- Formulated with Aleo Vera to sooth and moisturize the skin.
- Suitable for use sanitising TouchPoints in your personal space
