DIGITAL CLEANING MANAGEMENT

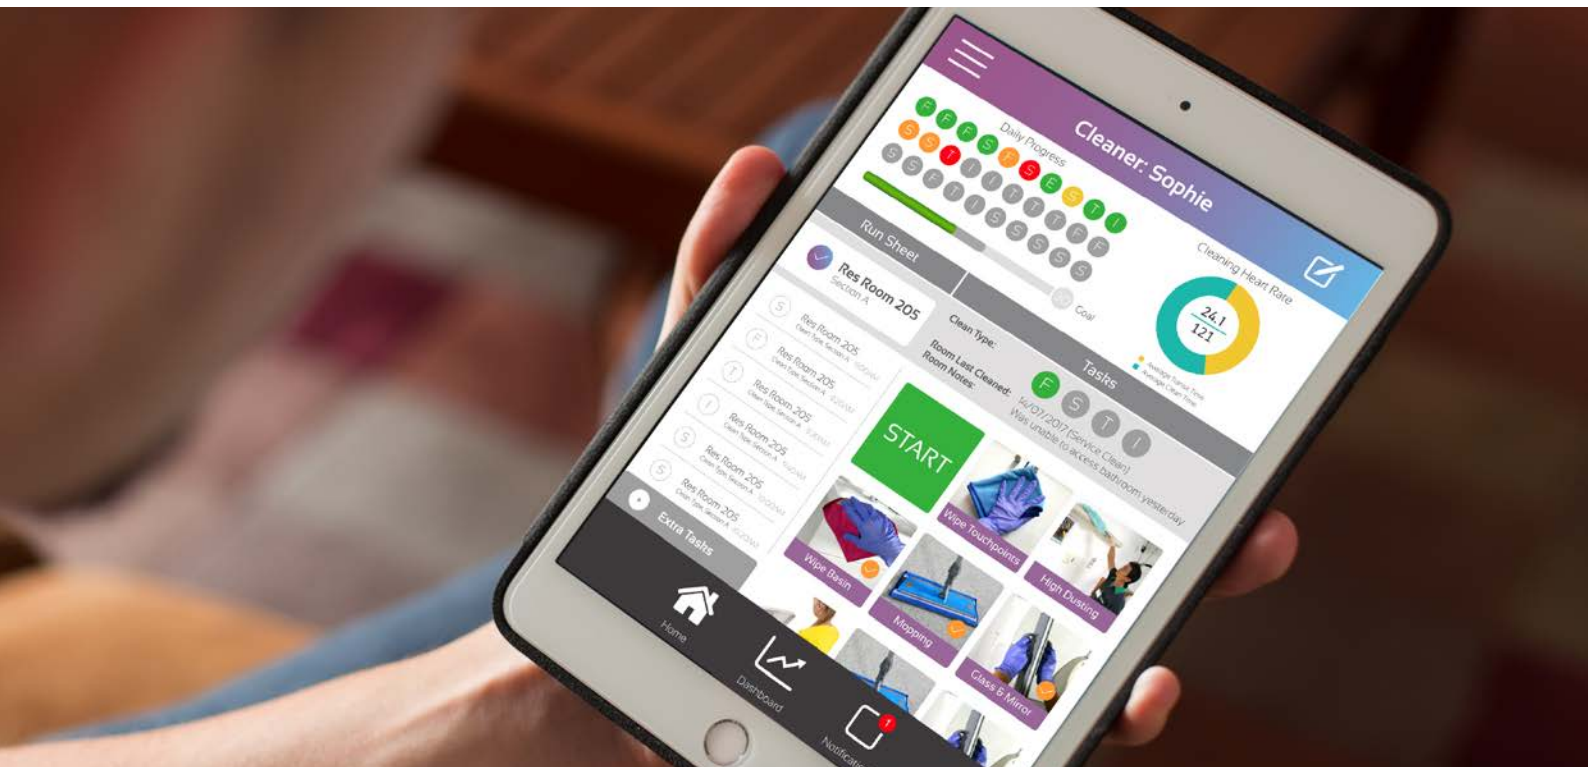

INTERCLEAN

The InterClean Group is comprised of InterClean Australasia and InterClean Managed Services, which work together to create and implement the best possible cleaning solutions and digital management systems for the healthcare and facility management industries.

Our approach to cleaning management is systems and solutions based. We don't just throw products at a problem, but rather look at the big picture and help our distributors and end users come up with strategies to turn their management goals into a reality at the operational level. We understand and believe in the importance of training employees properly, communicating cleaning plans and procedures clearly, managing the cleaning process and making accountability and autonomy part of the cleaner's responsibility.

InterClean sources products, ideas and management systems from all over the world and are constantly unearthing new and innovative solutions to the cleaning challenges your industry faces. Our passion is finding new and improved ways to approach cleaning, raising the standard of cleanliness within your hospitals, nursing homes, airports & schools.

If you're passionate about best practice and want the best systems in your facility we would love to work with you to achieve your goals.

POSSIBILITIES NOTHING IS IMPOSSIBLE WITH A CUSTOMISED INTERCLEAN TROLLEY

Moving forward

For cleaners to get thru their day they need to keep moving forward, and when they have to leave their cleaning to return to a cleaners room, waste area or laundry this costs them valuable time causing them to go backwards or slow down.

Mobile office

The cleaners trolley is basically their office and it needs to hold everything they will need for their day as close to them as possible.

Central Bucket Solutions

Various central bucket configurations are available allowing you to have ready to use cloths and chemicals right in the middle of your trolley.

Side Bucket Solutions

Use the front Plastic Side Basin to hold 3 X 4 L buckets, 1 X 6 L & 1 X 8 L Buckets or 2X 6L Buckets.

WASHING AREA

STORAGE

Lockable Bucket Solutions

Trolleys can be customised to be accessible or keep your chemicals and consumables under lock and key making it safer for residents and patients.

GE AREA

WASTE AREA

Easy to move

trolleys come with our 125 or 150mm silent rubber wheels allowing them to move easily over carpeted floors and can have adjustable handles to suit operator height

Runsheets

Whether your staff use a printed Runsheet or use iPads for their validation there are many alternatives allowing your staff to follow their cleaning plan.

Compact, Medium or Large

Choose from compact trolleys on small bases, medium trolleys on large bases or even customised trolleys using extensions.

Mopping choices

Your mopping system can be pre soaked, manual using Aquamops or moistened using our Accu-Dose systems that give you greater control over your mop moisture management.

Easy to clean and disinfect

Our panels are designed to be easy to clean so that you can clean and disinfect them as often as needed.

MICROFIBRE TROLLEY SETUP

PRODUCT DESCRIPTION

	1	Shaggy Duster
	1	Hand Held Holder for Glass & Showers
	1	Aquamop
	1	Wall Washing Adjustable Handle
	4	Shaggy Duster Covers
	5	Glass & Mirror Microfibre Covers
	25	Blue Microfibre Cloths
	25	Red Microfibre Cloths
	5	Red Scrubby's

Nothing is impossible with a customised InterClean Trolley.

The InterClean Trolley System has been designed to give you exactly what you want and need in a cleaner's work station.

Whether you need an open 120L waste bin, a concealed 150L waste or laundry bag section, shelves, lockable doors or drawers, the InterClean Trolley System covers it all.

PRODUCT DESCRIPTION

	10	Red Scrub-E wall Washing Pads
	20	Red Scrub & Dry for Bathrooms
	20	Blue Scrub & Clean for Wards & General Areas
	5	Green Scrub & Clean for Dinning Room

MOPPING OPTIONS

FEATURES

- Place blue mops in blue bucket
- Place folded cloths in 8L buckets under centre lid
- Aqua Mop
- Place duster, glass & wall washing microfibre in top draw
- Shaggy Duster
- Place red mops in red bucket
- Place consumables in large drawer

SINGLE ACCU-DOSE

DUAL ACCU-DOSE

PRE-MOISTENED

PRE-MOISTENING YOUR MOPS

1 Place correct amount of mops vertically in your bucket.

2 Place sieve over bucket to allow for even dispersion.

3 Pour correct amount of solution over the sieve to moisten all mops.

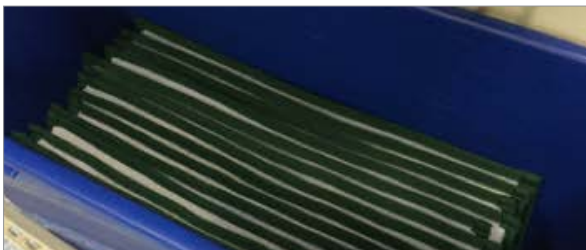

4 Place hermetic lid onto bucket and lock to seal.

5 Lift bucket upside down to help mops absorb evenly.

6 Take a clean mop to clean each area and place into laundry bag at back of trolley after use.

Prepare your Blue Scrub & Clean Mops

Add 2.5 litres of cleaning solution to each bucket of 15 mops

Dose for 1 mop	166ml
Dose for 10 mops	1.66 Litres
Dose for 15 mops	2.5 Litres

Prepare your Red Scrub-E Mops

Add 2 litres of cleaning solution to each bucket of 20 mops

Dose for 1 mop	100ml
Dose for 10 mops	1 Litre
Dose for 20 mops	2 Litres

ACCU-DOSE INSTRUCTIONS

1 Fill the tank 6 litre tank allows user to accurately dose approx. 30 mop heads with up to 200mls of solution per mop.

2 Insert & secure with key Solution container can be locked in place to prevent tampering.

3 Set & lock accu-dose amount Accu-Dose dial can be set to dispense between 100 and 400mls. Removable key helps increase consistency.

4 Press to release solution Easy push handle to release solution into mop tray.

5 Place the mop on the tray Mops will absorb solution on the lower side.

6 Mop is accurately dosed and ready to use Next mop can be dosed and ready for use while you are cleaning current room.

DERBY PEDAL BINS

Derby Pedal Bins are completely made in polypropylene, shock-resistant, with rounded corners and smooth contours for easy cleaning. They are available with coloured lids to encourage waste separation. Ideal for medium-large rooms in industries, food service, schools & fitness clubs.

Features include a hands free foot pedal operation along with optional dividers and for the 90L Open Up, a slow closing lid.

Open-up 90L Bin

Completely made in polypropylene with front door to help the operator while emptying the bin and for inside cleaning. Shock-resistant, with rounded corners and smooth contours for easy cleaning. Outside ergonomic handle and non-marking wheels.
