# BE PREPARED FOR YOUR NEXT OUTBREAK

The disposable TouchPoint Isolation Cleaning kit is your complete and effective solution to take control of infection outbreaks in the most safe, easy and efficient way possible.

- Disposable Microfibre made to capture maximum amounts of bioburden
- 1000 ppm Chlorine tabs and wipes superior in both storage life and in-use capacity
- NO dangerous vapours or strong odours to irritate staff, visitors or room occupants
- Continues to work in the presence of dirt/cloths/organic matter
- Eliminates 'measure & pour' guess work with easy to deliver dosage systems
